

ACCESSORIES BY LANDING GEAR™

AIRExpress™ ground crew and traffic controllers teamed up to develop quality-made skating accessories that reduce turbulence and lighten landings.

ELBOW AND KNEE GUARD SET Adult and youth sizes

- Double protection: thick, shock-absorbing pad plus hard-shell knee guard.
- Elastic backing plus adjustable straps assure snug fit.
- Lightweight and comfortable.

AERODYNAMIC SAFETY HELMET Adult and youth sizes

- Safety-certified helmet reduces the impact of a fall.
- High-density, shock-absorbing, superprotective polyurethane foam molding.
- Lightweight, air-vented comfort.
- Adjustable, with extra pads for custom sizing.
- Tailor-fit, easy-release chin strap.
- Meets TUV, GS and SNELL protective headgear standards.

WRIST GUARDS Available in small and large

- Tough nylon plus foam padding to cushion impacts.
- Sturdy, contoured wrist protector.
- Adjustable straps for secure, custom fit.
- Comfortable, lightweight design.

TOUR DE FORCE

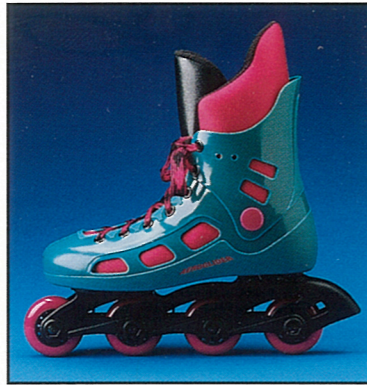

SKATES THAT FLY. SALES THAT SOAR.
A Powerful In-Line Line-up.

PREPARE FOR TAKEOFF

A powerful sales force.

Products made to move.

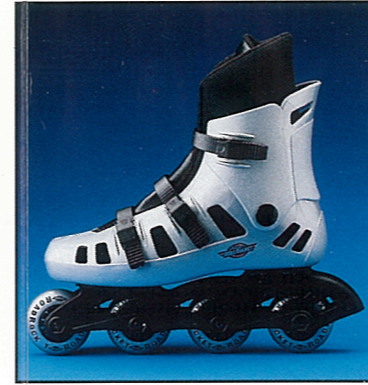

AERO GLIDER™
Entry Level

Beginners start here. Novice skaters love the looks ... and the brake ... on these skates. Sporty laces, easy-glide bearings, lightweight, air-vented boots and a cushioned liner make in-line skating a breeze.

AERO GLIDER™
Entry to Intermediate Level

Hey, I can skate! For beginners ... and those approaching cruising altitude. This has all the great features of the entry level Aero Glider™ plus the secure fit and extra support of an easy-latch buckle.

ROAD ROCKET™
Intermediate Level

Road Rocket™ skaters are on a roll, and three, quick-latch buckles give them all the support they need. Lightweight, cushioned style, plus upgraded bearings and sporty, printed wheels.

STUNT PILOT™
Intermediate to Advanced

For smooth skaters and speed demons, too. These bearings really fly! The wheels are high-rebound, shock-absorbing and big, (72mm, adult sizes). The brake is adjustable for added high-flying mileage.

STUNT PILOT™
Advanced Level

It's for showoffs. They're not at the rink, they're at the ramp. Top Gun bearings, *super* high-rebound wheels (76 mm, adult sizes). Shock-absorbing, too. Plus a rubber, adjustable brake for smooth landings.

FLY FIRST CLASS

First-class flyers expect more than a small snack. AIRExpress™ delivers. All the creature comforts, and more. Skates and accessories are fully warranted. They must meet the lofty standards of AIRExpress™, or they're repaired or replaced free of charge.

Every model has cushioned, shock-absorbing lining to minimize turbulence ... the air conditioned comfort of vented, lightweight boots ... premium bearings, durable brakes, and a chassis that's tougher than that infamous "black box."

Stunt Pilot™ models, for serious skaters, feature oversized, super high-rebound wheels; rubber, adjustable brakes; and bearings worthy of a "FASTEN SEATBELTS" sign.
